SUMMARY

Full-stack web developer and graduate of the Web Development Boot Camp certification program at the University of Washington. Combining a background in the automotive industry with newfound skills as a developer, I want to create innovative and engaging applications that provide a high-quality user experience with lightweight and efficient functionality utilizing agile methodologies.

TECHNICAL SKILLS

Languages: React, Redux, JavaScript ES6+, HTML5, CSS3
Applications: GitHub, Heroku, Git Bash, MySQL, MongoDB, Postman, Robo 3T
Tools: Express.js, Node.js, jQuery, Bootstrap, AJAX, Sequelize, Mongoose

PROJECTS

Wizards and Whiteboards - https://wizards-and-whiteboards.herokuapp.com/

Summary: A web application aimed at helping developers prepare for whiteboard interview algorithms via a fun, two-dimensional dungeon-crawler game.
Repository: *https://github.com/vantango/htmlephant-front-end* & *https://github.com/vantango/htmlephant-back-end*
Role: Backend Developer, Map/Character Artist
Tools: React, JavaScript, Redux, React-Ace, NES-CSS, MongoDB, Mongoose, Toastify
- Awarded "Best Presentation" by the coding boot camp instructional staff.
- Collaborated with a team of four to build a full MERN stack web application in two weeks.
- Contributed to scoping, estimating, and planning of the project.
- Rapidly prototype new features in a React-based web application.
- Managed Kanban board and the GitHub repositories for both frontend and backend
- Handled the majority of merge/pull requests, and deployment through Heroku.

So Thirsty - https://sothirstyproject.herokuapp.com/

Summary: *A* web application that allows users to make a profile for each one of their plants to show off their personalities, keep track of watering, and upload user photos to keep records of their growth.
Repository: *https://github.com/vantango/so_thirsty*
Role: Frontend Developer
Tools: JavaScript, jQuery, HTML (Handlebars), Foundation, Sequelize, MySQL, Toastify
- Awarded "Best Functionality" by the coding boot camp instructional staff.
- Collaborated with a team of four to design, develop, debug and deploy the application within 1 week.
- Understand requirements, engage with team members to define solutions, and estimate the scope of work required.
- Managed the front-end development of the website - standardized process related to sprint planning, deployments, and roadmap.
- Difficult problem troubleshooting and resolution.
- Perform end user testing to ensure the user experience is consistent on mobile devices (iOS and Android)

Park Sky - https://vantango.github.io/uw-project1-parksky-app/

Summary: A dynamic web application that allows users to search for any U.S national park on a given date and displays park data and stargazing conditions/data.
Repository: *https://github.com/vantango/uw-project1-parksky-app*

Role: Frontend Developer
Tools: JavaScript, jQuery, HTML, CSS (Foundation)

- Collaborated with team members to develop user workflows, data requirements, and convert layouts into functional application components using best practices across the entire development stack.
- Maintained code documentation and organization.
- Participated in regular SCRUM meetings utilizing agile methodology best practices.
- Project planning, build, and deployment of application was completed in one and a half weeks.

EDUCATION

Full Stack Web Development Certificate   Nov 2020 – Mar 2021
University of Washington - Seattle,
WA

B.A. in Political Science   Sep 2009 – Aug 2012
Central Washington University - Ellensburg,
WA

EMPLOYMENT HISTORY

<u>**Parts Advisor**</u>   Oct 2017 – May 2020
Mercedes-Benz of Tacoma - Fife, WA

Placing customer orders through our internal parts software and gathering shipment and ETA data from our distribution centers around the country and in Germany. Addressing inbound calls and emails for parts requests from retail and wholesale customers.

- Consistently ranked among the top 2 sales performers out of a team of 7.
- 100% customer satisfaction; known amongst the team for going above and beyond for customers.

<u>**Business Development Associate**</u>   Mar 2017 – Aug 2017
SecureW2 - Seattle, WA

Identifying the wireless network concerns and needs of educational organizations through consultation services that would provide clients with the best cloud-based software solutions to achieve their goals.

- Developed and maintained relationships with IT professionals in higher education and K-12 institutions while researching new business prospects in national and global markets.
- Coordinated demo meetings, technical reviews, and created quotes for both current accounts and potential clients while working as a liaison between the technical support team and clients.

<u>**Dealership Express Service Technician**</u>   Sep 2015 – Feb 2017
Carter Subaru - Shoreline, WA

Serviced vehicles for maintenance and repairs while communicating with service advisers about additional recommended services.

- Compiled detailed accounts of completed services and issues or concerns found during service via CDK vehicle information software.
- Trained, mentored, and coached new express service technicians while delegating specific tasks in order to complete work orders by their deadlines.
